PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, Microsoft Excel, Power BI, and Python. Currently building Excel reporting pipelines and SQL-based workflows at BH Sales — **reducing manual reporting time by ~30%**. Completed AI-powered analytics simulations with Tata (GenAI) and Deloitte Australia. Business-first mindset: I ask what decision the data needs to support, then work backwards to the analysis. Open to Junior Data Analyst, BI Analyst, and Analytics Intern roles.

EXPERIENCE

Data Analyst Intern Apr 2026 – Present

BH Sales · Remote

- Designed and maintained Excel-based sales reporting templates for weekly performance tracking — reducing manual reporting time by ~30%
- Wrote SQL queries to extract and segment sales data across product lines, enabling faster identification of top-performing SKUs and underperforming regions
- Cleaned and standardised datasets (nulls, duplicates, formatting issues) to ensure analysis-ready data quality
- Delivered ad-hoc analysis reports translating raw figures into actionable recommendations for sales leadership

GenAI Data Analytics Virtual Intern Jan 2026 – Feb 2026

Tata Group (via Forage) · Remote

- Conducted EDA using GenAI tools to assess data quality and identify risk patterns
- Applied AI-assisted analytics frameworks to structure insights for predictive modelling use cases
- Practised no-code model evaluation to assess customer behaviour indicators

Data Analytics Virtual Intern Dec 2025 – Feb 2026

Deloitte Australia (via Forage) · Remote

- Performed data analysis and forensic data tasks on structured client datasets
- Identified anomalies; produced structured findings reports with business recommendations
- Created an interactive Tableau dashboard; used Excel to classify data and draw business conclusions

PROJECTS

D-Mart Sales Dashboard 2024 May 2026

Excel · Pivot Tables · Data Visualization · Business Analysis

- Built interactive Excel dashboard to analyse D-Mart sales data across product categories and regions
- Identified top 5 performing product categories and 3 underperforming regions using pivot tables
- Visualised monthly revenue trends and YoY comparisons with dynamic charts

SQL Customer & Sales Segmentation Analysis May 2026

SQL · MySQL · Microsoft Excel · Data Analysis

- Analysed retail sales dataset to segment customers by purchase behaviour and identify revenue patterns
- Wrote 10+ SQL queries (SELECT, GROUP BY, JOIN, HAVING, subqueries); exported results to Excel for visualisation

SKILLS

Core Analytics	SQL · Excel (Advanced) · Power Query · ETL · Data Cleaning · Data Analysis
BI & Visualisation	Power BI · DAX · Tableau · Data Visualization · Dashboard Development
Programming	Python · Pandas · NumPy
AI & Emerging	Generative AI · AI-Assisted Analytics · Prompt Engineering
Business	Business Intelligence · Stakeholder Reporting · Problem-Solving

EDUCATION & CERTIFICATIONS

R. N. G. Patel Institute of Technology

B.Voc Software Development · Bardoli · 2024–2027

Global International School

HSC Commerce (English Medium) · GSEB · 61.47% · 2022–2024
